What is a PTC site?

A PTC site is a website where you can get paid to click and view advertisements. Most PTC sites offer new ads every day which can be clicked by members. Each ad usually has to be viewed for a certain amount of time (5-30 seconds) and pays around \$0.001-\$0.02. During the time the ad is shown you do not need to keep the window with the ad itself active; you can minimize it and do anything else.

How much can I make from PTC?

It is impossible to tell you exactly how much you can earn. The earnings depend on how often you click the ads and how many friends or people you invite to join under you. In PTC, persistency is the main key. Your clicks: Most PTC sites offer 1 cent per click and have 4 or more ads running daily. In that case, you would be earning 4 cents or more per day from that site.

Your referrals: You can also earn money from the clicks of your referrals. Referrals are people you invited (called direct referrals) and joined the site under your referral link or people already registered on the site which the site rents to you for 30 days or more for a fee (called rented referrals). Every site has its own policy regarding referrals, so please remember to read it carefully.

Recommended ways to increase your earnings

1. Most (if not all) PTC sites offer "Premium" memberships. These memberships give you access to increased rates for every click you make in order to help you reach minimum payout faster, and to increased rates for every click your referrals make and many more great features.
2. Another way to increase your income faster is to buy referral packs.
3. Combined with premium memberships, your profits will grow much faster.
4. Renting for longer periods can bring you some discounts on the rented referrals packs.

In conclusion, Persistence is the key to success. Never give up and one day all the hard work will be fully rewarded.

What is a PTC site?

A PTC site is a website where you can get paid to click and view advertisements. Most PTC sites offer new ads every day which can be clicked by members. Each ad usually have to be viewed for a certain amount of time (5-30 seconds) and pays around \$0.001-\$0.02. During the time the ad is shown you do not need to keep the window with the ad itself be active; you can minimize it and do anything else.

How much can I make from PTC?

It is impossible to tell you exactly how much you can earn. The earnings depend on how often you click the ads and how many friends or people you invite to join under you. In PTC, persistency is the main key. Your clicks: Most PTC sites offer 1 cent per click and have 4 or more ads running daily. In that case, you would be earning 4 cents or more per day from that site.

Your referrals: You can also earn money from the clicks of your referrals. Referrals are people you invited (called direct referrals) and joined the site under your referral link or people already registered on the site which the site rents to you for 30 days or more for a fee (called rented referrals). Every site has its own policy regarding referrals, so please remember to read it carefully.

Recommended ways to increase your earnings

1. Most (if not all) PTC sites offer "Premium" memberships. These memberships give you access to increased rates for every click you make in order to help you reach minimum payout faster, and to increased rates for every click your referrals make and many more great features.
2. Another way to increase your income faster is to buy referral packs.
3. Combined with premium memberships, your profits will grow much faster.
4. Renting for longer periods can bring you some discounts on the rented referrals packs.

In conclusion, Persistence is the key to success. Never give up and one day all the hard work will be fully rewarded.

How do you get paid?

Most PTC sites pay their members via PayPal and/or AlertPay when they have reached the minimum amount of money needed to cash out (usually \$1-\$10). Some sites offer instant cash outs, while on others you might have to wait a couple of weeks before you receive your money. What you first thought, I suppose, was "... \$0.01 – isn't it too little?" No wonder, because that's what my first thought was, too. But let's strike a balance.

$$20 \text{ ads} \times 0.01\$ = 0.20\$$$

$$30 \text{ days} \times 0.20\$ = 6\$$$

$$30\text{-}40 \text{ sites} \times 6\$ = 180\$ \text{-} 240\$$$

•

This is the plain balance-sheet, but without rendering an account of the most valuable of the whole system – the referrals. These are the people you have directed to a certain PTC site (direct referrals) or have hired from the respective PTC site against payment (rented referrals). Each time a referral clicks you receive a given sum. In most of the PTC sites it is equal to the half of the amount of money received by the referral himself/herself, namely from \$0.0005 to \$0.005. Now let's strike a new balance, this time with 10 referrals taken into consideration.

$$10 \text{ referrals} \times 20 \text{ ads} \times 0.005\$ = 1\$$$

$$30 \text{ days} \times 1\$ = 30\$$$

$$30\text{-}40 \text{ sites} \times 30\$ = 900\$ \text{-} 1200\$$$

You can obtain referrals from the very PTC site by paying a given sum of money. Its amount depends on the number of referrals you buy. Here I show you the prices of a different number of referrals of Neobux.com - one of the hottest site.

$$3 \text{ referrals} - 0.75\$$$

$$10 \text{ referrals} - 2.5\$$$

$$20 \text{ referrals} - 5\$$$

$$30 \text{ referrals} - 7.5\$$$

$$50 \text{ referrals} - 12.5\$$$

$$70 \text{ referrals} - 17.5\$$$

$$100 \text{ referrals} - 25\$$$

The big problem the referrals pose is that some of them cease to be active, i.e. at one time they stop to click. That means they do not bring you any revenues. For such cases the PTC sites have provided for a referrals "recycling", i.e. the inactive referrals are replaced.

3 How do you get paid?

Most PTC sites pay their members via PayPal and/or AlertPay when they have reached the minimum amount of money needed to cash out (usually \$1-\$10). Some sites offer instant cash outs, while on others you might have to wait a couple of weeks before you receive your money. What you first thought, I suppose, was "...\$0.01 – isn't it too little?" No wonder, because that's what my first thought was, too. But let's strike a balance.

20 ads x 0.01\$ = 0.20\$ 30 days x 0.20\$ = 6\$

30-40 sites x 6\$ = 180\$-240\$

•

This is the plain balance-sheet, but without rendering an account of the most valuable of the whole system – the referrals. These are the people you have directed to a certain PTC site (direct referrals) or have hired from the respective PTC site against payment (rented referrals). Each time a referral clicks you receive a given sum. In most of the PTC sites it is equal to the half of the amount of money received by the referral himself/herself, namely from \$0.0005 to \$0.005. Now let's strike a new balance, this time with 10 referrals taken into consideration.

10 referrals x 20 ads x 0.005\$ = 1\$ 30 days x 1\$ = 30\$

30-40 sites x 30\$ = 900\$-1200\$

You can obtain referrals from the very PTC site by paying a given sum of money. Its amount depends on the number of referrals you buy. Here I show you the prices of a different number of referrals of Neobux.com - one of the hottest site.

3 referrals – 0.75\$

10 referrals – 2,5\$ 20 referrals – 5\$

30 referrals – 7.5\$ 50 referrals – 12.5\$

70 referrals – 17.5\$ 100 referrals – 25\$

The big problem the referrals pose is that some of them cease to be active, i.e. at one time they stop to click. That means they do not bring you any revenues. For such cases the PTC sites have provided for a referrals "recycling", ie, the inactive referrals are replaced.

The Step by Step PTC earning method

1. Create an AlertPay or PayPal balance for getting the money from your earning PTC website.
2. Register and create an account on all of the **under given sites**
3. Click all of your ads everyday and keep an eye out for extra ads.
4. Earn 0.75\$ through clicking your ads everyday.
5. Transfer the money from your main balance to your rental balance.
6. Rent a pack of 3 referrals.
7. Turn on AutoPay.
8. Maintain your referrals and recycle the ones that have low average.
9. Buy more referrals when you can.
10. Do NOT cash out any of the money that you gain in your main balance as this is used for buying more referrals and maintaining them.
11. Once you reach 500 rented referrals, stop renting anymore referrals and just maintain the ones that you have. That means recycle the bad clickers and keep an average of 2 at least.
12. Build up your money to about \$100 and then upgrade to Golden.
13. Once you get Golden membership, keep renting more referrals and maintaining them. Once you hit 1250 referrals, you can stop renting referrals and just maintain the
